

Furniture that grows with your growing needs?

Kreation Wardrobe from Godrej Interio

As individuals and families grow, there's a growing need for innovative storage solutions. That's where the Kreation Wardrobe from Godrej Interio fits in. Into every lifestyle, into every space possible and into every décor.

Kreation looks wooden from the outside but underneath that traditionally carpentered wardrobe lies a solid, pure steel body in sleek finish, designed to offer the highest levels of versatility to your wardrobe layout.

Along with a basic design made up of one main unit with 3 shelves and ample hanging space the Kreation wardrobe includes various additional units to choose from such as an overhead storage unit, a locker for keeping your valuables, an add on dresser with LED lights, a drawer and wooden side panels in Douglas Pine colour.

Imagine having to move into another apartment, or into a high-rise, and having to lug along traditionally carpentered furniture. Now imagine if you could break down all the components into smaller easily-manageable units and transport them. Flat-packed to allow easy assembly and dismantling with knock-down construction, Kreation is easy to transport to high-rise apartments or just about anywhere.

Available in classy colors like Peach, Wine Red and Cream, the Kreation Wardrobe with its modern, stylish looks is truly making wardrobe shopping a totally new & exciting experience.
