OVERALL MATERIAL CONTENT

GREEN FEATURES

Environment Friendly Materials

Various options are available for fabrics in 100% polyester and combination of Polyester and cotton. All the fabrics are dyed with eco-friendly dyes

Environment Friendly Processes

The upholstery process employed for Urban sofa is VOC emissions free.

Designed For Durability

Urban Sofa is designed for longer life and its knocked-down construction provides extended life by easy part replacement.

Transportation

Completely Knocked down construction of Urban Sofa reduces volume during transportation. This directly helps to reduce CO2 emissions due to transportation.

Ease of Assembly

Urban Sofa is easy to assemble and disassemble into its main subassemblies for easy replacement due to the KD joineries used.
