

WISH HABITAT

GREEN ASSURANCE CARD

'Habitat is a set of elements that come together in different ways to give users flexibility to create work settings as per their need, when and where they need it. Habitat's mobile elements are easy to move around and let users reconfigure spaces on the go as and when work needs change during the course of the day, without needing any intervention from the facilities team

CONSTRUCTION

'Wish Habitat' is a unique combination of tile based furniture system for open plan office layouts. There are 2-types of system panels which can be connected together with various post connectors in many geometric configurations and support worktops via brackets and legs to construct workstations to suite a wide spectrum of office layouts.

DESIGNED FOR DURABILITY

Designed for longer life & its knocked down construction provides extended life by easy part replacement and serviceability.

OVERALL MATERIAL CONTENT

Overall material content excluding the weight of packaging material is as shown:

RECYCLED MATERIAL

We use and promote recycled material in the products as well as in its packaging.
