CONSTRUCTION

Wooden top panel is made from 18 mm thick pre laminated twin board with polypropylene injection moulded edges. The panels have corners rounded for safety usage. The design of desk-top is such that there is a provision for pen/pencil storage. The plastic storage version has a plastic storage tray made of polypropylene and is fixed beneath the desktop on the metal under structure. The plastic hinge version has plastic hinges made of polypropylene and are fixed beneath the desktop on the front side for lifting the top to access the storage below. Modesty panel is made of blow moulded high density polyethylene and is fixed on the modesty panel tray assembly.

DESIGNED FOR DURABILITY

Designed for longer life & its knocked down construction provides extended life by easy part replacement and serviceability.

OVERALL MATERIAL CONTENT

Overall material content excluding the weight of packaging material is as shown:

RECYCLED MATERIAL	We use and promote recycled material in the products as well as in its packaging.
PRE-CONSUMER RECYCLED CONTENT	11%
POST-CONSUMER RECYCLED CONTENT	0%
TOTAL RECYCLED CONTENT	5%
ENVIRONMENT FRIENDLY MATERIALS	Use of E1 grade particle board which is PEFC certified , Use of low VOC emitting glue, Powder used in powder coating process is lead free.
ENVIRONMENT FRIENDLY PROCESSES	Powder coating process used to manufacture this product is phosphate free process. Thus making powder coating an environment friendly process. Use of briquette based thermic fluid heater in lamination process, eliminating use of fossil fuels.
