CONSTRUCTION

Work surface is made of 25 mm thick MDF board. PVC membrane foil is on the top with 8 X 2 mm deep groove on the centre of the table for graphics. There is a specially profiled edge to prevent stripping of the foil. There is a bend pipe under structure of MS which is powder coated. The under structure is fitted with the top using SS machine screws.

DESIGNED FOR DURABILITY

Designed for longer life & its knocked down construction provides extended life by easy part replacement and serviceability.
